SUMMARY

Motivated and detail-oriented SQA Engineer with hands-on experience in software testing and quality assurance processes. Skilled in writing test cases, performing functional and regression testing, and collaborating with development teams to ensure product quality. Passionate about learning new tools and methodologies to improve testing efficiency and deliver high-quality software.

PROFESSIONAL EXPERIENCE

SQA Engineer | March 2025 - July 2026

TexBazar Limited

- Conduct manual testing of web and mobile applications to ensure high-quality releases.
- Collaborate with developers and product managers to identify, reproduce, and resolve defects.
- Perform regression, functional, and usability testing to validate new and existing features.
- Use tools such as Trello and Postman for test management and API testing.
- Prepare detailed test reports and contribute to continuous quality improvement processes.

Website: <https://texbazar.com/>

Junior Software Engineer | August 2019 - May 2021

BDYouth.com

Worked on back-office systems like Inventory System, Accounting System, Production Management, POS System, and General Store.

- Develop back-end and manage REST APIs.
- Analyse code defects and failures, presenting refactoring and design fixes.
- Design and implement new systems.
- Collaborate with team members.
- Analyse full project requirements to formulate and implement object-oriented programming solutions that address those requirements efficiently and effectively.
- Develop and conceptualise a comprehensive UI/UX design strategy.
- Analyse existing code for re-engineering.
