ABOUT ME

To secure a position where I can efficiently contribute my skills and abilities to the growth of the organization and build my professional career. To know something new and enhance my skills in a dynamic and stable workplace.

WORK EXPERIENCE

31/07/2019 – 30/05/2021 Dhaka, Bangladesh

Junior Software Engineer BDYouth.com

I worked on back-office systems like an Inventory System, Accounting System, Production Management, POS System and General Store.

- Developing back-end and REST API management.
- Analyzed code defects and failures and presented code refactor and design fixes.
- Designing new system and implementation
- Collaborate with team members
- Analyze full project requirements to formulate and implement object-oriented programmatic solutions that efficiently and effectively address said requirements.
- Developing and conceptualizing a comprehensive UI/UX design strategy.
- Analyze existing coding for re-engineering.
